Note: This table contains provisional gear-to-date figures. They were calculated by combining published data from the 2016/17 quarterly publications to date.

It should therefore be noted that these figures are based on provisional data. An annual report, with fully validated figures for 2016/17 is scheduled to be published on 30 November 2017.

If you require finalised figures earlier then the latest annual LAC municipal waste management report should be used, bearing in mind it may not necessarily reflect the situation in 2016/17.

The latest annual report (2015/16) is available from the DAERA website:

<https://www.daera-ni.gov.uk/publications/northern-ireland-local-authority-collected-municipal-waste-management-statistics-2015>
