

CITY AND NEIGHBOURHOOD SERVICES DEPARTMENT

The monumental sculptor that YOU choose to carry out the work on your family headstone must currently have registered and be signed up to the Belfast Code of Memorial Safe Working Practice Policy, which is contained within our Memorial Management Policy. This Policy promotes high standards and ensures that the monumental sculptor has the necessary skills to safely erect/re-erect a headstone and carry out any auxiliary memorial work, such as additional lettering, and/or permanently making an existing headstone safe, to the required standards. For your ease we have compiled below a list of all current monumental sculptors who have registered and have signed up to our Policy. If we become aware that a monumental sculptor who has registered and therefore signed up to the Belfast Code of Memorial Safe Working Practice Policy has breached the terms and conditions of our Policy, we may consider refusing all further permission for them to undertake any other work in our cemeteries. A full copy of our Memorial Management Policy is available on request.

Belfast City Council does not accept responsibility for any work carried out by any of the monumental sculptors on this list. It is for information purposes only.

| | | Name of Sculptor/ Company | Registered Address | Telephone Number | Email Address |
